

Approximately 4 out of 10 women in Arizona will experience sexual violence at some point throughout their lives.

While rural communities in Arizona add up to an area larger than the entire state of Indiana, there are only 5 adult forensic exam sites serving the populations in these regions across the state.

Sexual Violence in Arizona

Why Use our Sexual Violence Curriculum?

Using 8 core competencies, the training provides a framework for responding to sexual violence:

- Knowledge Base
- Communication Skills
- Capacity Building Skills
- Advocacy Skills
- Service Coordination Skills
- Teaching Skills
- Organizational Skills
- Interpersonal Skills

58

percent average increase in knowledge for curriculum's 14 objectives*

77

percent of participants that rated the curriculum as "Excellent"*

*based off participants' pre and post self surveys

Our curriculum gives Community Health Workers (CHWs) the skills to be part of a coordinated community response to sexual violence by:

- ✓ Giving a general overview of sexual violence
- ✓ Preparing CHWs to give appropriate support to survivors and victims
- ✓ Providing practical strategies for addressing sexual violence
- ✓ Offering a training experience that provides hope and empowerment

For more information on participating in or hosting a Sexual Violence training, please e-mail us at leahm@aachc.org or lorrainer@aachc.org. Additional details on our curriculum and our other programs can be found on our website: www.AzRWHN.org
